

ENDS AND TRENDS WITH KIM AND KAREN

Karen's Trend Alert: Women's fashion is ever-changing but don't think for one second that men's fashion doesn't come and go just as easily. No, sir! Men also have trendy styles and colors just like the ladies. We have runway fashion shows – and so do they.

Let's take a peek at what fashion forecasters foresee the "it" colors will be for men:

- **Cayenne:** This shade of red is fiery and a great complement to neutrals (such as Paloma and Sand below).
- **Celosia Orange:** A splash of this warm, rich orange adds gusto to your neutral attire. Try it as a pair of shoes.
- **Freesia:** A powerful burst of color, this yellow is full of energy.
- **Comfrey:** A very masculine take on green, Comfrey is fresh and crisp.
- **Placid Blue:** Sky blue, this shade is light and airy – and perfect for spring.
- **Dazzling Blue:** A classic spring blue, this shade is a keeper.
- **Purple Haze:** A deeper, vintage purple, this shade is also modern and strong.
- **Magenta Purple:** This bright and solid purple is a robust shade. Combine it with high voltage colors like Celosia Orange and Dazzling Blue for a spring stunner.
- **Sand:** A neutral that's warm and agreeable with just about every color – even bold ones.
- **Paloma:** A confident and neutral gray. It's a spring must-have.
